To Whom It May Concern:

We at Phoenix Christian Preparatory School have had the pleasure of working with iE for many years. They have sent us a wide variety of students from various countries. We have found iE to be very professional and diligent. It is a pleasure to work with them. We have also found their students to be as represented.

iE does a very good job of preparing the students ahead of time and also, if there are any problems, in handling those promptly and efficiently. In addition, iE makes payments on time. We look forward to working with iE on a continual basis.

Sincerely,

Carol M. Stines
